This Supplemental Operating and Financial Data contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Future events and actual results, financial and otherwise, may differ materially from the results discussed in the forward-looking statements. You should not rely on forward-looking statements as predictions of future events. Forward-looking statements involve numerous risks and uncertainties that could significantly affect anticipated results in the future and, accordingly, such results may differ materially from those expressed in any forward-looking statement made by us. These risks and uncertainties include, but are not limited to: adverse economic and real estate developments in Southern California and Honolulu; decreased rental rates or increased tenant incentives and vacancy rates; defaults on, early terminations of, or non-renewal of leases by tenants; increased interest rates and operating costs; failure to generate sufficient cash flows to service our outstanding indebtedness; difficulties in identifying properties to acquire and completing acquisitions; failure to successfully operate acquired properties and operations; failure to maintain our status as a REIT under the Internal Revenue Code of 1986, as amended; possible adverse changes in rent control laws and regulations; environmental uncertainties; risks related to natural disasters; lack or insufficient amount of insurance; inability to successfully expand into new markets or submarkets; risks associated with property development; conflicts of interest with our officers; changes in real estate and zoning laws and increases in real property tax rates; the consequences of any future terrorist attacks; and other risks and uncertainties detailed in our Annual Report on Form 10-K for the year ended December 31, 2006 filed with the Securities and Exchange Commission.

CORPORATE DATA

COMPANY BACKGROUND

We are one of the largest owners and operators of high-quality office and multifamily properties in Los Angeles County, California and have a growing presence in Honolulu, Hawaii. Our presence in Los Angeles and Honolulu is the result of a consistent and focused strategy of identifying submarkets that are supply constrained, have high barriers to entry and exhibit strong economic characteristics such as population and job growth and a diverse economic base. In our office portfolio, we focus primarily on owning and acquiring a substantial share of top-tier office properties within submarkets located near high-end executive housing and key lifestyle amenities. In our multifamily portfolio, we focus primarily on owning and acquiring select properties at premier locations within these same submarkets.

Our office portfolio consists of 47 properties with approximately 11.6 million rentable square feet and our multifamily portfolio consists of 9 properties with a total of 2,868 units. As of September 30, 2007, our office portfolio was 95.7% leased, and our multifamily properties were 99.3% leased. Our office portfolio contributed approximately 84.9% of our annualized rent as of September 30, 2007, while our multifamily portfolio contributed approximately 15.1%. As of September 30, 2007, our Los Angeles County office and multifamily portfolio contributed approximately 90.9% of our annualized rent, and our Honolulu, Hawaii office and multifamily portfolio contributed approximately 9.1%.

Our properties are concentrated in nine premier Los Angeles County submarkets—Brentwood, Olympic Corridor, Century City, Santa Monica, Beverly Hills, Westwood, Sherman Oaks/Encino, Warner Center/Woodland Hills and Burbank—as well as in Honolulu, Hawaii.

This Supplemental Operating and Financial Data supplements the information provided in our reports filed with the Securities and Exchange Commission. Additional information about us and our properties is also available at our website www.douglasemmett.com.

- (1) We calculate funds from operations before minority interest (FFO) in accordance with the standards established by the National Association of Real Estate Investment Trusts (NAREIT). FFO represents net income (loss), computed in accordance with accounting principles generally accepted in the United States of America (GAAP), excluding gains (or losses) from sales of depreciable operating property, real estate depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate depreciation and amortization and gains and losses from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of the performance of REITs, FFO will be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that results from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate FFO in accordance with the NAREIT definition and, accordingly, our FFO may not be comparable to such other REITs' FFO. Accordingly, FFO should be considered only as a supplement to net income as a measure of our performance. FFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends. FFO should not be used as a supplement to or substitute for cash flow from operating activities computed in accordance with GAAP.
- (2) Adjusted Funds From Operations (AFFO) is a non-GAAP financial measure we believe is a useful supplemental measure of our performance. We compute AFFO by adding to FFO the non-cash compensation expense, amortization of prepaid financing costs and straight-line rents, and then subtracting recurring capital expenditures, tenant improvements and leasing commissions. AFFO is not intended to represent cash flow for the period, and it only provides an additional perspective on our ability to fund cash needs and make distributions to shareholders by adjusting the effect of the non-cash items included in FFO, as well as recurring capital expenditures and leasing costs. We believe that net income is the most directly comparable GAAP financial measure to AFFO. We also believe that AFFO provides useful information to the investment community about the Company's financial position as compared to other REITs since AFFO is a widely reported measure used by other REITs. However, other REITs may use different methodologies for calculating AFFO and, accordingly, our AFFO may not be comparable to other REITs.

(1) Based on BOMA 1996 remeasurement. Total consists of 11,001,302 leased square feet (includes 211,958 square feet with respect to signed leases not commenced), 501,063 available square feet, 65,096 building management use square feet, and 67,655 square feet of BOMA 1996 adjustment on leased space.

(2) Represents annualized monthly cash base rent (i.e., excludes tenant reimbursements, parking and other revenue) under leases commenced as of September 30, 2007 (excluding 211,958 square feet with respect to signed leases not yet commenced). The amount reflects total cash rent before abatements. For our Burbank and Honolulu office properties, annualized rent is converted from triple net to gross by adding expense reimbursements to base rent.

(3) Represents square footage adjustments for leases that do not reflect BOMA 1996 remeasurement.
