This Supplemental Operating and Financial Data contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Future events and actual results, financial and otherwise, may differ materially from the results discussed in the forward-looking statements. You should not rely on forward looking statements as predictions of future events. Forward-looking statements involve numerous risks and uncertainties that could significantly affect anticipated results in the future and, accordingly, such results may differ materially from those expressed in any forward-looking statement made by us. These risks and uncertainties include, but are not limited to: adverse economic and real estate developments in Southern California and Honolulu; decreased rental rates or increased tenant incentives and vacancy rates; defaults on, early terminations of, or non-renewal of leases by tenants; increased interest rates and operating costs; failure to generate sufficient cash flows to service our outstanding indebtedness; difficulties in identifying properties to acquire and completing acquisitions; failure to successfully operate acquired properties and operations; failure to maintain our status as a REIT under the Internal Revenue Code of 1986, as amended; possible adverse changes in rent control laws and regulations; environmental uncertainties; risks related to natural disasters; lack or insufficient amount of insurance; inability to successfully expand into new markets or submarkets; risks associated with property development; conflicts of interest with our officers; changes in real estate and zoning laws and increases in real property tax rates; the consequences of any possible future terrorist attacks; and other risks and uncertainties detailed in our Annual Report on Form 10-K filed with the Securities and Exchange Commission.

CORPORATE DATA

Douglas Emmett, Inc. (NYSE: DEI) is a fully integrated, self-administered and self-managed real estate investment trust (REIT), and one of the largest owners and operators of high-quality office and multifamily properties located in submarkets in Southern California and Hawaii. The Company's properties are concentrated in ten submarkets – Brentwood, Olympic Corridor, Century City, Santa Monica, Beverly Hills, Westwood, Sherman Oaks/Encino, Warner Center/Woodland Hills, Burbank and Honolulu. The Company focuses on owning and acquiring a substantial share of top-tier office properties and premier multifamily communities in neighborhoods that possess significant supply constraints, high-end executive housing and key lifestyle amenities.

(1) Basic and diluted shares are calculated in accordance with accounting principles generally accepted in the United States (GAAP) and include common stock plus dilutive equity instruments, as appropriate. Since we were in a net loss position during the three and six months ended June 30, 2011 and 2010, all potentially dilutive instruments, including OP units and LTIP units (Long-Term Incentive Plan units that are limited partnership units in our OP) were anti-dilutive and have been excluded from our computation of weighted average dilutive shares outstanding. OP units and vested LTIP units were included in the non-GAAP calculation of diluted shares on the "Corporate Data" page preceding this section.

- (1) For the three and six months ended June 30, 2011, GAAP interest expense was increased by \$4.48 million and \$8.91 million, respectively, of non-cash amortization from interest rate swaps we terminated in November 2010. In calculating FFO for each period, we offset this amortization by an equivalent amount, leaving a net zero impact on FFO, since we recorded the full impact of the swap termination payment in FFO in the fourth quarter of 2010. Please note that there will be a similar add-back until the GAAP non-cash amortization balance is fully amortized in August 2011.

NOTE: Our definitions of NOI and FFO are contained on the page titled "Definitions" which follows.

(1) We manage, and have a significant investment in, two unconsolidated institutional real estate funds which owned 8 properties at June 30, 2011. With limited exceptions, these unconsolidated Funds are our exclusive investment vehicle until October 2012, using the same underwriting and leverage principles and focusing primarily on the same markets as we have. Our unconsolidated Funds have combined equity commitments totaling \$554.7 million, of which approximately \$171.3 million remained undrawn as of June 30, 2011. These amounts included commitments from us of \$196.4 million, of which \$38.0 million remained undrawn as of June 30, 2011. We receive a pro rata share of any distributions based on our investment, additional distributions based on the total committed capital, and a carried interest if the investors' distributions exceed a hurdle rate. We also receive fees and reimbursement of expenses for managing the Funds' properties.

(2) Includes a 48.82% interest in Douglas Emmett Fund X, LLC (Fund X) and, in 2011 only, an aggregate 21.52% interest in the properties owned by Douglas Emmett Partnership X and its subsidiaries.

Funds From Operations (FFO): We calculate funds from operations before noncontrolling interest (FFO) in accordance with the standards established by the National Association of Real Estate Investment Trusts (NAREIT). FFO represents net income (loss), computed in accordance with GAAP, excluding gains (or losses) from sales of depreciable operating property, real estate depreciation and amortization (other than amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. We provide FFO as a supplemental performance measure because, by excluding real estate depreciation and amortization and gains and losses from property dispositions, it can illustrate trends in occupancy rates, rental rates and operating costs from year to year. We also believe that, as a widely recognized measure of the performance of REITs, FFO can be used by investors as a basis to compare our operating performance with that of other REITs. However, FFO has limitations as a measure of our performance because it excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our results from operations. Other equity REITs may not calculate FFO in accordance with the NAREIT definition and, accordingly, our FFO may not be comparable to those other REITs' FFO. Accordingly, FFO should be considered only as a supplement to net income as a measure of our performance. FFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends. FFO should not be used as a supplement to or substitute measure for cash flow from operating activities computed in accordance with GAAP.

Adjusted Funds From Operations (AFFO): Adjusted Funds From Operations (AFFO) is a non-GAAP financial measure we believe can be a useful supplemental measure of our performance. We compute AFFO by adding to FFO the non-cash compensation expense, amortization of prepaid financing costs and straight-line rents, and then subtracting recurring capital expenditures, tenant improvements and leasing commissions. AFFO is not intended to represent cash flow for the period, and it only provides an additional perspective on our ability to fund cash needs and make distributions to stockholders by adjusting the effect of the non-cash items included in FFO, as well as recurring capital expenditures and leasing costs. We believe that net income is the most directly comparable GAAP financial measure to AFFO. We also believe that AFFO provides useful information to the investment community about our financial position as compared to other REITs since AFFO is a widely reported measure used by other REITs. However, other REITs may use different methodologies for calculating AFFO and, accordingly, our AFFO may not be comparable to that of other REITs.

Net Operating Income (NOI): Reported net income (or loss) is computed in accordance with GAAP. In contrast, net operating income (NOI) is a non-GAAP measure consisting of the revenue and expense attributable to the real estate properties that we own and operate. Although NOI is considered a non-GAAP measure, we present NOI on a "GAAP basis" by using property revenues and expenses calculated in accordance with GAAP. The most directly comparable GAAP measure to NOI is net income (or loss), adjusted to exclude general and administrative expense, depreciation and amortization expense, interest income, interest expense, income from unconsolidated partnerships, income (or loss) attributable to noncontrolling interests, gains (or losses) from sales of depreciable operating properties, net income from discontinued operations and extraordinary items. We provide NOI as a supplemental performance measure because, by excluding real estate depreciation and amortization expense and gains (or losses) from property dispositions, some investors use it to illustrate trends in occupancy rates, rental rates and operating costs from year to year. We also believe that NOI can be useful to investors as a basis to compare our operating performance with that of other REITs. However, NOI has limitations as a measure of our performance because it excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have real economic effect and could materially impact our results from operations). Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to those other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends. NOI should not be used as a substitute measure for cash flow from operating activities computed in accordance with GAAP.

Same Property NOI: To facilitate a comparison of NOI between periods, we calculate comparable amounts for a subset of our owned properties referred to as our "same properties." Same property amounts are calculated as the amounts attributable to properties which have been owned and operated by us, and reported in our consolidated results, during the entire span of both periods compared. Therefore, any properties either acquired after the first day of the earlier comparison period or sold, contributed or otherwise removed from our consolidated financial statements before the last day of the later comparison period are excluded from same properties. We may also exclude from the same property set any property that is undergoing a major repositioning project that would impact the comparability of its results between two periods.

Cash Basis NOI: NOI as defined above includes the revenue and expense directly attributable to our real estate properties calculated in accordance with GAAP, and is specifically labeled as "GAAP basis." We also provide NOI calculated on a cash basis because it can also be useful for investors to understand our operations. Cash basis NOI is also a non-GAAP measure, which we calculate by excluding from GAAP basis NOI our straight-line rent adjustments and the amortization of above/below market lease intangible assets and liabilities. Accordingly, cash basis NOI should be considered only as a supplement to net income as a measure of our performance. Cash basis NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends. Cash basis NOI should not be used as a substitute measure for cash flow from operating activities computed in accordance with GAAP.

For forward looking purposes, please use the table on page 13 that shows Debt Balances as of August 1, 2011, and not this table. This table does not reflect the substantial changes that occurred subsequent to June 30, 2011, including the closing of two new loans, the repayment of four existing loans and the expiration of certain swaps.

Total consolidated and unconsolidated debt		\$ 3,849,550 ⁽¹¹⁾			

(1) Includes the effect of interest rate contracts and excludes amortization of loan fees, all shown on an actual/360-day basis. As of June 30, 2011, the weighted average remaining life of our outstanding debt was 4.4 years. Of the \$3.0 billion of that debt where the interest rate was fixed under the terms of the loan or a swap, the weighted average remaining life was 5.3 years, the weighted average remaining period during which interest was fixed was 3.6 years and the weighted average annual interest rate was 4.58%.

(2) Includes a group of five separate loans aggregating approximately \$1.45 billion, each secured by a separate collateralized pool of properties. Requires monthly payments of interest only, with outstanding principal due upon maturity. Originally, the interest rates on all of these loans were effectively fixed by swaps. As shown in the table, only certain of the debt remained effectively fixed as of June 30, 2011 because of the expiration of certain of these swaps. Subsequent to June 30, 2011, we closed two non-recourse, secured term loans and repaid all but one of these loans. Please see page 13 for a table setting out our debt balance as of August 1, 2011 following the closing of these two loans and the expiration of certain interest rate swaps on August 1, 2011.

(3) Represents our share of a \$365 million loan held by one of our unconsolidated real estate funds in which our Operating Partnership owns an equity interest. Secured by six properties in a collateralized pool. Requires monthly payments of interest only, with outstanding principal due upon maturity.

(4) Represents our share of a \$16.14 million loan secured by one property, requiring monthly payments of interest only with outstanding principal due upon maturity. The borrower is a consolidated entity in which our Operating Partnership owns a two-thirds interest.

(5) Secured by one property, requiring monthly payments of interest only with outstanding principal due upon maturity. The loan has two tranches aggregating \$111.92 million with different interest rates.

(6) Fannie Mae Discount Mortgage-Backed Security (DMBS) has historically tracked 90-day LIBOR, although volatility may exist between the two rates, resulting in an immaterial amount of swap ineffectiveness.

(7) Each loan is secured by a separate collateral pool consisting of one or more properties, requiring monthly payments of interest only with outstanding principal due upon maturity.

(8) Represents our share of an amortizing term loan with a principal balance at June 30, 2011 of approximately \$55.7 million, which was assumed by one of our unconsolidated real estate funds in which our Operating Partnership owns an equity interest. Requires monthly payments of principal and interest.

(9) Secured by seven properties in a collateralized pool. Bears interest at a fixed interest rate of 4.46% on an actual/360-day basis until March 1, 2018 and a floating interest rate thereafter. Monthly interest payments are interest-only for the first three years, with principal amortization thereafter based upon a 30-year amortization table.

(10) Represents maturity date of March 1, 2018, which we may extend to March 1, 2020, subject to certain conditions.

(11) Excludes an unamortized non-cash debt premium of \$4,482 representing the mark-to-market adjustment recorded on all variable rate debt outstanding at the time of our IPO.

(1) All properties are 100% owned except 8 properties totaling 1.8 million square feet owned by our unconsolidated real estate funds and a 78,000 square foot property owned by a joint venture in which we own a 66.7% interest.

(2) Based on BOMA 1996 remeasurement. Total consists of 12,836,397 leased square feet (includes 310,026 square feet with respect to signed leases not commenced), 1,638,318 available square feet, 95,911 building management use square feet, and 102,322 square feet of BOMA 1996 adjustment on leased space.

(3) Represents annualized monthly cash base rent (i.e., excludes tenant reimbursements, parking and other revenue) under leases commenced as of June 30, 2011 (does not include 310,026 square feet with respect to signed leases not yet commenced). The amount reflects total cash base rent before abatements. For our Burbank and Honolulu office properties, annualized base rent is converted from triple net to gross by adding expense reimbursements to base rent.

(4) Represents annualized base rent divided by leased square feet.

(5) Represents annualized base rent at expiration divided by leased square feet.

(6) Represents the square footage adjustments for leases that do not reflect BOMA 1996 remeasurement.

- (1) All properties are 100% owned except 8 properties totaling 1.8 million square feet owned by our unconsolidated real estate funds and a 78,000 square foot property owned by a joint venture in which we own a 66.7% interest.
- (2) Includes all remaining leases which have an expiration date in the applicable quarter and which had not been renewed or extended as of June 30, 2011, including leases where someone other than the tenant (for example a subtenant) had already executed a new lease for the space as of June 30, 2011. All month-to-month tenants are included in the expiring leases in the first quarter listed.
- (3) Represents annualized base rent (i.e., excludes tenant reimbursements, parking and other revenue) per leased square foot at expiration. The amount reflects total cash base rent before abatements. For our Burbank and Honolulu office properties, annualized base rent is converted from triple net to gross by adding expense reimbursements to base rent.
